

IP67 Dimmable Constant Voltage LED Driver

Thank you for purchasing Deltech Dimmable LED Driver. You already made a wise decision by selecting top reliable driver with high compatibility for TRIAC Dimmers.

Product Code:

12V150DIP67

Features:

- Constant Voltage LED Power Supply
- TRIAC Dimmable (Mains Dimmable)
- Applied to leading edge and trailing edge TRIAC dimmers
- Compliant with Safety Extra Low Voltage standard
- Aluminium Impact Resistant Profile
- Suitable for both indoor and outdoor application with IP67 standard
- 3 Years Guarantee

Technical Data:

Input Voltage Range: 200-240Vac \pm 10%

Frequency: 50/60 Hz

Dimming Range: Max. 5%~100%

Working Temperature: ta: -30 ~50 @ 5-95%RH

Output Voltage: 12Vdc

Output Power: Max. 150W

Output Current: Max. 12500mA

Storage Temperature: -40 ~80 , 5-95%RH

Packing Information:

Dimension: 300X52X36mm(L*W*H)

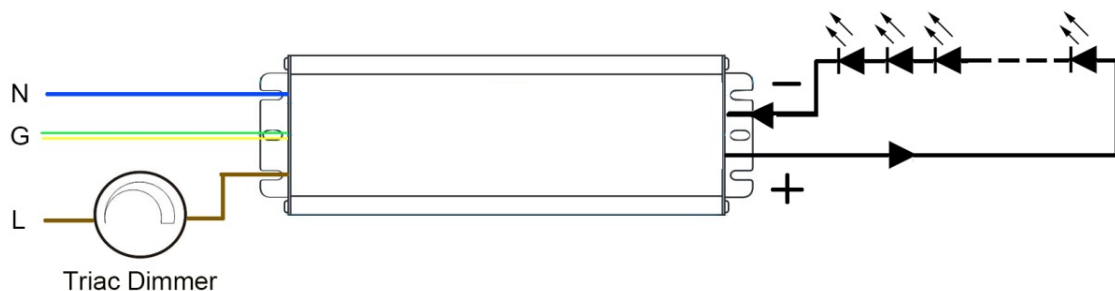

Product Net Weight: 800g

Connections Instruction:

A qualified electrician is required to install and make connections to the Dimmable LED drivers while connecting LED lighting products and TRIAC Dimmers.

The following instructions should be read carefully before commencing installation. Failure to implement Procedures below will invalidate the guarantee.

- Switch Off Supply before servicing
- Ensure 200-240Vac supply input voltage and 12Vdc output voltage
- Please follow the instruction of wires diagram below when connecting to dimmers and LEDs.

If in any doubt, please contact Deltech Technical department for further information. Thank you.
